TandoStone is available in two styles: The **Stacked Stone** features a dry stack profile with smaller stones tightly complied, while the **Creek Ledgestone** emulates the rugged look of carious hand-picked stones. TandoStone fits *any application*. It's a durable option for your single-family, mutli-family or even your commercial projects! It's lightweight design means an easy one-person installation and stones will never break or fall off the wall.

Versetta LedgeStone

* Covers approx. 2sq ft / panel

Versetta Tightcut

* Covers approx. 2sq ft / panel

Versetta Stone offers *two beautiful* styles. Their **LedgeStone**, similar to dry stack or sandstone, the rugged texture and purposeful irregularity offers a well-worn look that suggests years in the elements. For a traditional look of random ashlar or quarried limestone, the **Tight-Cut** is perfect fit. This profile fits tightly together to emulate rural 19th century American architecture. Any project from New Construction to Remodeling, Exterior facades to Sunning interiors, Versetta Stone adds the beautiful detail of traditional stone masonry to residential and commercial buildings. Set with a 'Class A' Fire Rating, Versetta Stone withstands freezes, thaws, normal winds and heat. Each panel is embedded with a G-90 galvanized nail strip that allows for easy installation with nails or screws.
